INTERDEPARTMENTAL COVER SUPPORT TO OPERATION NIMBUS

I. OPERATIONAL OBJECTIVE:

The objective of Operation NIMBUS is photographic and electronic reconnaissance of selected military and intelligence targets on the Island of Cuba. The instrument to be used to accomplish the objective is the U-2 aircraft.

II. GENERAL OPERATIONAL COVER PLAN:

Under U.S. Government contract, Lockheed Aircraft Corporation, the ostensible owner of the U-2, is ferrying the aircraft from Burbank, Cal., to Ramey AFB, Puerto Rico. From Ramey AFB it was to fly a geodetic re-survey mission of the Atlantic missile range used in conjunction with firings from Cape Canaveral.

The above plan principally applies when the U-2 is located, or involved in an incident, outside the U. S. continental limits. For training/staging base activities and for emergency landings at bases within the continental United States, there is an alternate story as indicated in paragraphs IV., B. & C. below.

III. FOR PURPOSES OF THIS OPERATION THE FOLLOWING AREAS ARE CONSIDERED TO BE:

A. Friendly:

Puerto Rico
Jamaica
Bahamas
Haiti

B. Hostile:

Cuba
Dominican Republic

IV. PERTINENT COVER STORIES TO BE DISSEMINATED BY RESPONSIBLE ACTION OFFICES ARE INDICATED BELOW:

D. Incident over Friendly Territory Outside U. S. (See III A)

1. Cover Story

Civilian test pilot, an employee of Lockheed, will state that he is ferrying the U-2C from Burbank, Calif. to Ramey AFB, Puerto Rico, from where he was to fly a geodetic re-survey mission of the Atlantic missile range used in conjunction with firings from Cape Canaveral.

(N.B. - Instructions to the pilot will be to secure the aircraft through local assistance to prevent damage and pilferage; contact local U. S. Consulate to assist him in communicating with his emergency contacts (1) Mission Control Center or (2) Lockheed Corp.)

2. Responsible Action Office(s)

POD; Lockheed Aircraft Corp.

3. Coordinating Office(s) Prior to Release
